

ePro+ Energy Management Comprehensive Solutions

Powered by SpyGlass

Why ePro+ ?

Business-related energy costs are one of the top expenses faced by organizations and rising energy prices increase these costs and narrow profit margins across every industry. As energy costs and inflation continue to climb, organizations need a trusted advisor more than ever. The bottom line: **Volatile energy markets shine a light on the need to plan for the future.**

Known for our industry-leading technology expense management solutions, SpyGlass now offers **ePro+**. As an **exclusive energy management service**, **ePro+** helps monitor, analyze, and control spending by using leading market intelligence for comprehensive, long-term solutions.

What is ePro+ ?

With the same SpyGlass dedication used to challenge the technology cost status quo, **ePro+** goes beyond retail supply recommendations. In addition to optimizing the best suppliers, terms, and pricing, **ePro+** provides active management to customize energy management solutions. The plus? Comprehensive, ongoing guidance throughout all energy services to proactively position your future needs and avoid surprises.

The ePro+ Comprehensive Quadrant Advantage

Led by expert industry insight, **ePro+** is your comprehensive resource for **reduced energy costs, greater efficiency**, and **reducing the risks** energy consumption has on your profitability.

RETAIL SUPPLY

A no-cost electricity and natural gas supply, delivery, tax, and tariff assessment

EFFICIENCY

We determine low or no-cost measures to decrease energy use immediately

ENHANCE

Explore other energy programs to reduce usage and mitigate risk

IMPLEMENT

The ePro+ team actively monitors and implements ongoing energy strategies

The ePro+ Process

With an assembled network of vetted energy suppliers, contractors, installers, and analysts led by industry veterans, the SpyGlass **ePro+** energy management service makes a difference on day one.
